Assignment 2 – Testing Evidence

AIDTM Student Support Agent

Screenshots from the application's audit log:

1. Cross-student access blocked

STU001 attempted to read STU002's fee_status record. The log shows allowed = false and result = blocked_cross_student_access.

2. Sensitive change rejected

The contact_email change request was rejected. The log shows approval_status = rejected and result = change_not_applied.

3. Sensitive change request pending

The contact_email change request is awaiting explicit approval. The log shows approval_status = pending and result = awaiting_explicit_approval.
